

Shadow & Breeze Awnings

The shed style **Shadow** and **Breeze** Awnings are stationary awnings designed for year-round installation with minimal maintenance. The **Shadow** has closed sides, a six inch rigid valance and can be used for both window and door applications. The **Breeze** is an open sided unit with a six inch loose valance and is for window application only. Both awnings block the sun's direct light and reduces radiant heat absorption which has been shown to lower air conditioning bills and prevent unnecessary replacement costs of furnishings.

Special Features and Benefits Include:

- Stationary awning
- Functional door and/or window accent
- Traditional look for homes and businesses
- Available in six popular colors
- Easy to follow installation instructions
- Virtually maintenance free
- Packed specially for reduced shipping costs

GO GREEN on Energy Cost!

Go Green and Reduce Energy Cost

Durasol retractable awnings effectively filter the sun's light creating a cool and relaxed environment. Solar heat gain is greatly reduced by limiting the amount of direct sunlight that enters a window or door.

The use of fabric awnings will **reduce solar heat by up to 90%*** and lower indoor temperatures by 10-15%, thus saving 25%* on air conditioning costs throughout the warmer months.
