

# Shed Awning

The **Shed Awning** is a traditional style unit used to accent entrances and windows as well as protect customers from weather. This awning can easily accommodate graphics on both the body and the valance and is used extensively to create brand awareness and visibility.

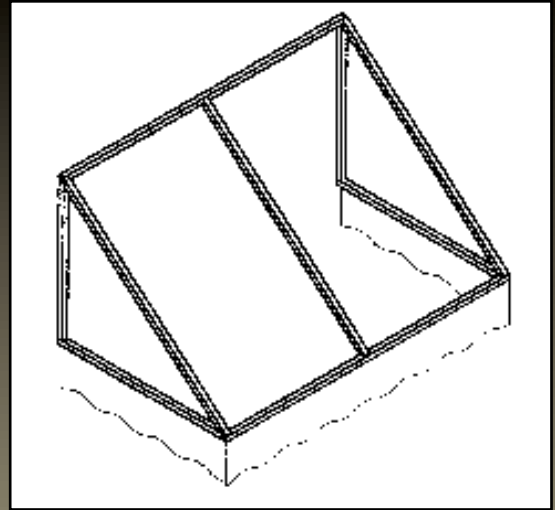

### **Special Features and Benefits Include:**

- Stationary awning
- Functional door and/or window accent
- Can be used to create a band of awnings over windows or complete façades
- Traditional look for restaurants, hotels and businesses
- Available in a broad array of fabrics
- Easily accommodates the addition of graphics

## **GO GREEN on Energy Cost!**

### **Go Green and Reduce Energy Cost**

Durasol retractable awnings effectively filter the sun's light creating a cool and relaxed environment. Solar heat gain is greatly reduced by limiting the amount of direct sunlight that enters a window or door.

The use of fabric awnings will **reduce solar heat by up to 90%\*** and lower indoor temperatures by 10-15%, thus saving 25%\* on air conditioning costs throughout the warmer months.
