Outside

Available for doors and walls,  
Plexidor Electronic Pet Doors  
provide security and pet access control.

- Plexidor Electronic Doors “read” the key code on the RFID key attached to your pet’s collar. Then the panel unlocks and slides up like a mini garage door, allowing access only to pets wearing the key.
- Secure - Interior stainless steel locking bar, thousands of key codes. Tough shatter resistant panel. Heavy, thick aluminum frames that won’t bend. Won’t interfere with home security systems.
- Pet and Child Safe - Panel won’t close when obstructed. Panel will not free-fall with power failure.
- Durable - Steel and hardened aluminum frame with thick acrylic closing panel.
- Dependable and Easy to Use - One button programming. Runs on household current.

# Pet Doors

Provides freedom for both you and  
your pet. Save money, save time,  
save your carpets, love your pet!

[www.appledoor.com](http://www.appledoor.com)

**• SAFE AND EASY TO USE**

See-thru Plexiglas panels open smoothly both ways with a gentle push.

**• SECURE**

Doors have locks, plus separate security plates, and can only be unscrewed and removed from inside your home.

**• TWO-WAY SELF-CLOSING**

Panels close automatically when pet has gone through. Mechanism concealed within main frame.

**• CLOSES QUIETLY**

Won't disturb you, or frighten your pet.

**• ENERGY-EFFICIENT**

The panels are molded\* to form a "Thermopane" effect for excellent insulation, and edged with snugfitting, high-density, nylon pile weatherseal to provide superior draft-proofing. Ideal for extreme climates. \*Size XL is a solid 3/8" thick sheet of acrylic.

**• VERSATILE**

Unique twin panels need only light pressure to open them, so large and small pets can use the same door. Cats and small dogs can open the large Plexidor.

**• SEE-THRU PANELS WITH HEAVY-DUTY FRAMES**

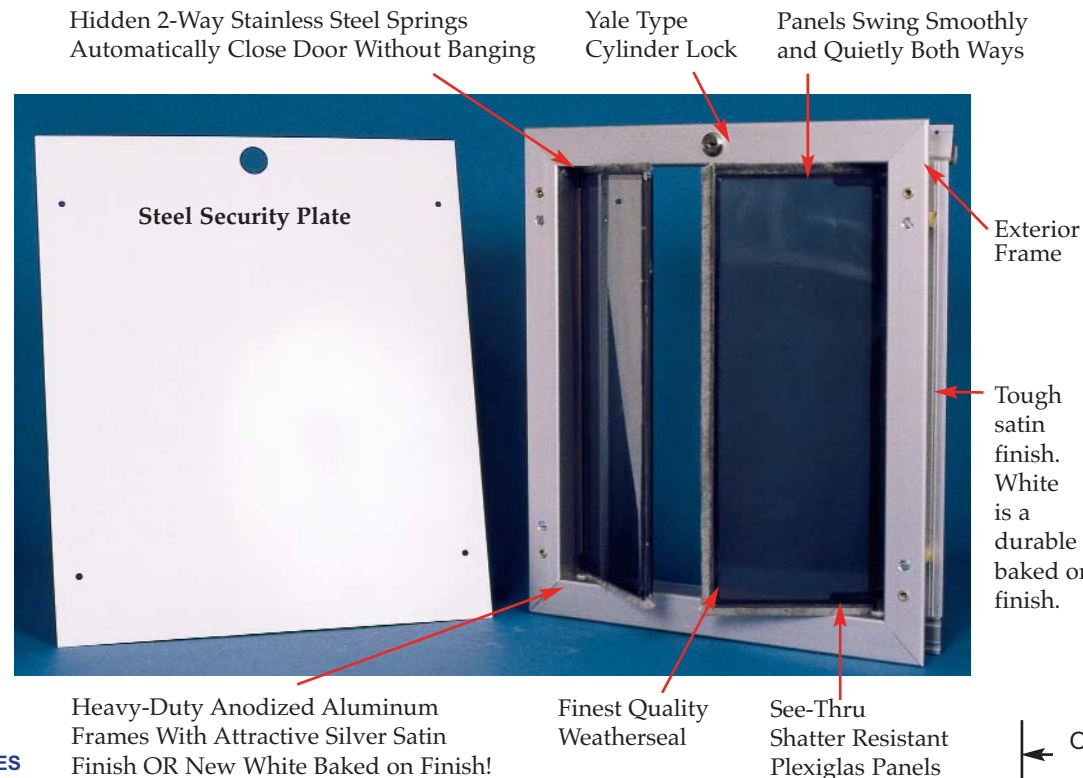

Rigid, high-impact, shatter-resistant Plexiglas panels with heavy-duty frames made of anodized aluminum. Frames won't rust, crack or warp.

**Plexidor™ Guarantee**

We are positive that you will find our PLEXIDOR™ pet doors to be the best-looking, best engineered and best value in a pet door. If for any reason you are not satisfied with your purchase, just return it within 30 days with your receipt and the purchase price will be immediately refunded. PLEXIDOR™ pet doors are covered by a 3 year warranty. Any defective part will be repaired or replaced without expense to the customer, excluding shipping charges, for 3 years from the purchase date.

# The Five Star Pet Door

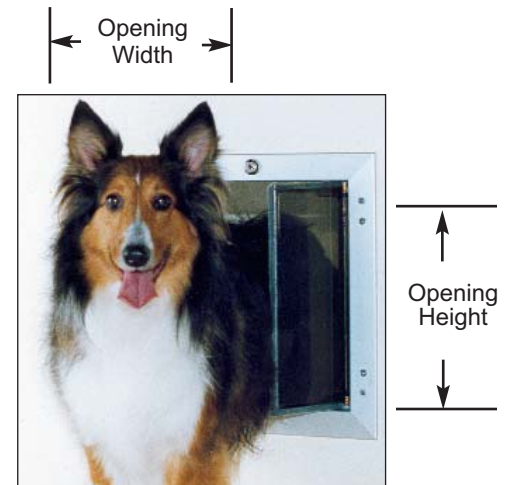

Available in the Following Designer Colors:  
**black, burgundy, ivory, forest green, pastel blue, cobalt blue, white, silver**

**How To Measure**

For opening height, measure from bottom of chest to top shoulders. Pets duck their heads as they push open their door and step through. Ideally, you should install the pet door with the top of the opening just above your pet's shoulder. But any position will do as long as your pet can open the door and get through comfortably.

**Sizing Questions? Call Apple Door Systems (804) 674-7774**

**Plexidor™ Pet Door Sizes**

Size	Measurements	( Inches )		Size Guide
		Height	Weight
