APPLE DOOR INTRODUCES NEW TILE FOR GARAGE FLOORS

RICHMOND, VA December 29, 2011: Apple Door Systems is proud to announce its latest home improvement item for the garage, AutoDeck. AutoDeck is the most practical and easy-to-install modular garage and industrial floor anywhere. Whether you are looking to renew your garage, add color to a showroom or need a slip-resistant floor anywhere, we've got the flooring solution for you. "Many times while installing garage doors our customers have asked if we would also finished the floor to give their garage a whole new look. We considered expensive epoxy painting systems but discovered that our customers wanted a much less expensive alternative that was still functional and looked good", says V.P. of Sales, Scott Rast. For less than a thousand dollars a 10 X 24 single car garage can have a floor that is showroom quality and easy to maintain. AutoDeck is sold as a do-it-yourself product or professionally installed for a modest fee. AutoDeck can be seen in our showroom or one of our sales associates can bring samples to you. Find out more about AutoDeck at appledoor.com.
